- ☒ A concise explanation of the relevance of the following listed non-English language information is included as presently understood by the individual designated in 37 C.F.R. §1.56(c) most knowledgeable about the content of the information as set forth below:

Foreign Patent Document
JP 8-143776

Explanation of Relevance

This document was cited by the International Searching Authority in the International Search Report as a category "A" document and its relevance as presently understood is obtained from the English language abstract which indicates that this document discloses a composition comprising a silicone gel and silica particles or silicone rubber particles incorporated therein.

JP 8-323857

This document was cited by the International Searching Authority in the International Search Report as a category "A" document and its relevance as

presently understood is obtained from the English language abstract which indicates that this document generally discloses a silicone rubber composition. More specifically, this document discloses an addition curable silicone rubber composition, especially one containing alkenyl group-containing organopolysiloxane (a), an organopolysiloxane copolymer (b), organohydrogensiloxane (c), a platinum compound (d) and fine powdery silica (e).

JP 11-147956

This document was cited by the International Searching Authority in the International Search Report as a category "A" document and its relevance as presently understood is obtained from the English language abstract which indicates that this document discloses a process for producing a film of a polydiphenylsiloxane.

JP 2001-138340

This document was cited by the International Searching Authority in the International Search Report as a category "A" document and its relevance as presently understood is obtained from the English language abstract which indicates that this document discloses a method for manufacturing a silicone sheet by simultaneously heating and curing silicone for forming a silicone elastomer and silicone for forming a silicone gel.

☐ A concise explanation of the relevance of the following listed non-English language information is set forth in the above-identified specification:
